

MileStone Security Camera System – There are 33 cameras throughout the plant and Administration Building that are being recorded. Most recordings are kept for 45 days. Most cameras use motion detection to limit the amount of data actually recorded.

**Public Address Meeting Recording System (PAMRS)**

ITS maintains the Public Address Meeting Recording System in the Board Room. This system uses wireless microphones to connect to speakers and digital recorders to offer better audio and to record meetings (as required in the Illinois Open Meetings Act). This system also integrates with the room projector to provide sound for videos, etc.
