

**FOUR RIVERS SANITATION AUTHORITY
ADDENDUM NO. 1
ITB #24-213
Electricity Supplier**

June 12, 2024

AD1-1 Notice

This Addendum No. 1, dated June 12, 2024, to the Invitation to Bid: Electricity Supplier supersedes all contrary and conflicting information in the above-mentioned instructions, specifications, and contract documents which are hereby supplemented or revised in certain particulars as follows:

AD1-2 General Information

The Authority submits Addendum No. 1 to answer questions and provide additional information.

AD1-3 Questions & Answers

Question 1: “Is the invitation to bid also open to consultants or only electricity suppliers? The reason I asked this is that under our procurement methodology the District should not only be looking at energy commodity but also assessing Community Solar guaranteed savings programs for the facilities. We have implemented this type of strategy at Fox Metro Water Reclamation District”.

Answer 1: If a consultant or broker submits a bid, the supplier must be identified on the bid.

Question 2: “Can you please provide the account data information showing any estimated data for each account”?

Answer 2: The estimated annual usage total is approximately 8 million Kw. Usage fluctuates with each billing cycle depending on weather and other factors.

AD1-4 Additional Information

1: “Recently ComEd updated to a new billing platform which prompted a new account number and a new field called Electric Choice Identification. In the Exhibit A the account information will also need to include the new account number and Electric Choice Identification fields”.

Response: Attached is revised Exhibit A with new ComEd account numbers and Electric Choice identification numbers.

2: “Long Term vs. short term – In the event the District looks at securing a renewable program (behind the meter solar or battery storage) at any of the facilities, it may warrant a shorter term contract for those sites and changing the buying methodology when/if those programs are energized”.

Response: This may be a possibility in the future but is not a consideration at this time or for the duration of the potential contract.

Bidder shall initial this Addendum No. 1 and include it with their proposal.
