

## MEMORANDUM

**DATE:** July 7, 2025  
**TO:** Polymer Vendors  
**FROM:** Four Rivers Sanitation Authority Plant Operations Department  
**RE:** Polymer Bench Testing & Pre-trial

---

Four Rivers Sanitation Authority (Authority, FRSA) would like to invite all vendors to polymer bench testing and pre-trial. FRSA encourages pre-trial performance testing to ensure that each vendor's product(s) performs well in the centrifuge.

To schedule bench testing, please contact Dan Pollard at 815-543-1456. After bench testing product(s), vendors are welcome to schedule a pre-trial during which up to three products may be run through the centrifuge. Pre-trials can be scheduled and performed from July 7, 2025, through August 8, 2025. Available days will be scheduled on a first come, first serve basis.

Formalized polymer trials are planned for August 18, 2025 – September 19, 2025. A memorandum will be issued in August with further formal trial information. Formal trials appointment requests will be accepted at that time.

FRSA looks forward to working with you. If you should have questions or comments, please contact Dan Pollard at 815-543-1456.
